

Answers to May Puzzle

NOTE: All except 62, 72, 74 are included in *Yosemite Wildflowers* by Judy & Barry Breckling.

54. Farewell-to-Spring (*Clarkia dudleyana*) in the Evening Primrose family (Onagraceae).
55. Purple Milkweed (*Asclepias cordifolia*) in the Dogbane family (Apocynaceae). [Milkweeds used to have their own family (Asclepiadaceae); I still file mine under the old family name.]
56. California Grape (*Vitis californica*) in the Grape family (Vitaceae).
57. Golden Yarrow (*Eriophyllum confertiflorum*) in the Sunflower family (Asteraceae).
58. Mock Orange (*Philadelphus lewisii*) in the Hydrangea family (Hydrangeaceae).
59. Fort Miller Clarkia (*Clarkia williamsonii*) in the Evening Primrose family (Onagraceae).
60. Yerba Santa (*Eriodictyon californicum*) in the Borage family (Boraginaceae).
61. Skullcap (*Scutellaria siphocampyloides*) in the Mint family (Lamiaceae).
62. Western Morning Glory (*Calystegia occidentalis*) in the Morning Glory family (Convolvulaceae).
63. Spicebush (*Calycanthus occidentalis*) in the Spicebush family (Calycanthaceae).
64. Straggling Gilia (*Allophyllum divaricatum*) in the Phlox family (Polemoniaceae).
65. Chamise (*Adenostoma fasciculatum*) in the Rose family (Rosaceae).
66. White Pitcher Sage (*Lepechinia calycina*) in the Mint family (Lamiaceae).
67. Butterfly Mariposa Lily (*Calochortus venustus*) in the Lily family (Liliaceae). Yellow Mariposa Lily (*C. superbus*) looks similar except that it has a \wedge -shaped nectary. I have never encountered *superbus* at Hite Cove, even though it is common at other Sierra Foothills locations.
68. Elegant Clarkia (*Clarkia unguiculata*) in the Evening Primrose family (Onagraceae).
69. California Buckeye (*Aesculus californica*) in the Soapberry family (Sapindaceae).
70. Golden Eardrops (*Ehrendorferia chrysantha*) in the Poppy family (Papaveraceae).
71. Pink Spineflower (*Chorizanthe membranacea*) in the Buckwheat family (Polygonaceae).
72. Matilija Poppy (*Romneya coulteri*) in the Poppy family (Papaveraceae). This species has California Rare Plant Rank 4.2 (Limited Distribution).
73. Purple Clarkia (*Clarkia purpurea*) in the Evening Primrose family (Onagraceae).
- * 74. Wand Mullein (*Verbascum virgatum*) in the Snapdragon family (Scrophulariaceae). Non-Native.
75. California Milkweed (*Asclepias californica*) in the Dogbane family (Apocynaceae).
- * 76. Klamath Weed (*Hypericum perforatum*) in the St. John's Wort family (Hypericaceae). Non-native.
77. Harvest Brodiaea (*Brodiaea elegans* ssp. *elegans*) in the Brodiaea family (Themidaceae).
78. Yawning Penstemon (*Keckiella breviflora*) in the Penstemon family (Plantaginaceae).
79. Hansen's Delphinium (*Delphinium hansenii*) in the Buttercup family (Ranunculaceae).
80. California Gaura (*Clarkia heterandra*) in the Evening Primrose family (Onagraceae).
